

Irvine, California.
September 11-13th, 2014.

Laser Operative, Endo, & Perio

We will be providing an in depth three day course covering the following topics:

Laser Operative - Providing a basic understanding of laser physics as well as laser tissue interaction. The operative course will also provide guidance and procedural input for everything from cavity preps to a variety of soft tissue applications.

Laser Endo - Providing in depth and hands on instruction for the execution of the PHAST™ protocol. This will also include your PHAST™ license.

Laser Perio - Providing the basic skill set necessary for the execution of laser perio treatments as well as hands on training.

Space is limited...register ASAP!
