

INTERNATIONAL WORKSHOP

SP DYNAMIS

Dates

September 13 – 15, 2010

October 11 – 15, 2010

November 17 – 19, 2010

December 1 - 3, 2010

Duration

Monday – Tuesday – Wednesday

Location

Fotona, Ljubljana, Slovenia

Private practice, Slovenia

Private practice, Croatia

Fotona[•]
choose perfection

Program objectives

- Understand the laser physics and laser/tissue interactions
- Understand difference between Er:YAG, LP Nd:YAG laser effects on different tissues
- Understand effects of the various parameters setting
- Learn how to gain maximum benefit for your practice out of SP Dynamis

Schedule

Sunday		
		Arrival of registered doctors in Ljubljana Accommodation
Monday		
Fotona	9.00 – 9.15	Welcome, coffee
	9.15 – 9.30	Description of workshop program, Introduction to Fotona
	9.30 – 10.15	Basic Laser Physics
	10.15 – 11.30	Tissue Interaction
	11.30 – 11.45	Break
	11.45 – 13.15	SP Dynamis presentation
	13.15 – 14.15	Lunch and discussion
Fotona (Dr. Jasmina Kozarev, Dermatologist)	14.30 – 15.30	Er:YAG and Nd:YAG lasers in dermatology procedures
	15.30 – 17.15	Live demonstrations on patients with Er:YAG and Nd:YAG
	17.15 – 18.00	Opportunity to perform treatments on each other under doctor's guidance and supervision
	18.30	Arrival at hotel, Closure of Day 1
Tuesday		
Avelana (Dr. Andrej Šikovec, spec. vasc. Surgeon), Otočec	8.00 – 9.30	Travel from the hotel to Avelana Clinic
	9.30 – 10.00	EndoVenous Laser Therapy Introduction
	10.00 – 10.45	Clinical – EndoVenous case # 1 with dr. Šikovec
	10.45 – 11.00	Discussion of the first case
	11.00 – 11.45	Clinical – EndoVenous case # 2 with dr. Šikovec
	11.45 – 12.00	Discussion of the second case
	12.00 – 12.45	Clinical – EndoVenous case # 3 with dr. Šikovec
	12.45 – 13.00	Discussion of the third case
	13.00 – 15.00	Open discussion over lunch
	15.00 - 16.30	Back to Ljubljana
	17.00	Arrival at the hotel, Closure of Day 2
Wednesday		
Poliklinika Maletić (Dr. Dusko Maletic, Specialist in Aesthetic Surgery and Urology)	8.00 – 11.30	Travel from the hotel to Poliklinika Maletić
	12.00 – 12.45	Clinical – Laser Lipolysis # 1 with dr. Maletić
	12.45 – 13.00	Discussion of the first case
	13.00 – 13.45	Clinical – Laser Lipolysis case # 2 with dr. Maletić
	13.45 – 14.00	Discussion of the second case
	14.00 – 16.00	Lunch and discussion
	16.00 - 19.30	Back to Ljubljana
	20.00	Arrival at the hotel, Closure of Day 3

Workshop Objectives

During the intensive three-day workshop participants will learn the basic principles of using SP Dynamis in a variety of non-surgical aesthetic and surgical procedures. The advantages of laser and laser-assisted treatments and the effects of various parameter settings will be discussed. Selected treatment procedures will be demonstrated on patients.

EVLA and laser lipolysis procedures will be focused on in greater detail through demonstrations with hands-on opportunity in a surgical setting and led by experts in their fields. It is the aim that participants will gain a full understanding of the complete procedures and receive the most current best practice guidelines. This includes covering risk assessment, anesthesia options, surgical technique and control, and post-operative patient guidelines.

Price

Discounted price for two persons 2.000 EUR (including VAT)

Please note that the deadline for payment is 2 weeks after your registration for the workshop but at least 2 weeks before the workshop date. Payments should be made through your local Fotona distributor.

REGISTRATION CONDITIONS

Deadline: 4 weeks before the workshop.

Registration is valid only after payment (from Fotona distributor) has been received. The number of participants is limited for each workshop; registrations are accepted on a first-come, first-served basis.

The policy for refunding registration fees will be as follows: 50% refund 14 days before the start of the workshop. Refunds cannot be given any later than 14 days before the start of the workshop. Notice of cancellation must be made in writing (fax/email) to Fotona. The date of receipt (fax/email) will serve as the basis for refunds.

Confirmation of registration: will be sent to you 2 weeks before the start of each workshop. Please arrange flight and hotel bookings after receipt of confirmation ONLY. Fotona cannot be held liable for any cancellation fees for travel arrangements.

Amount: 2.000 EUR
Description: SP Dynamis WS + participants name

The Laser and Health Academy is a framework, developed, founded and supported by Fotona, with the aim to advance medical, technical and scientific knowledge in the field of Lasers and their application in Medicine and Dentistry. It serves as a platform for exchange and dissemination of scientific knowledge among peers and to promote evidence-based laser medicine and dentistry among practitioners and the general public.

Its key activities centre on practical instruction and demonstration of laser techniques and procedures. These are delivered through a variety of workshops and seminars either at the Laser & Health Academy's own training and demonstration facility or on-site at the Laser & Health Academy Lecturers' surgeries and clinics.

After the workshop ...

... learn about the many secrets of Ljubljana by taking a guided tour. **In order for Fotona to organize a tour of Ljubljana for you, please let us know a week in advance.**

The tour is available on
Thursday at 18:30.

Lecturers

**Jasmina Kozarev, MD, Specialist
in Dermatovenerology**

Dr. Kozarev gained her Masters Degree from the University of Novi Sad, Serbia, in 1993 and went on to specialize in dermatovenerology at the same university. Her main interests include allergology, skin disease, dermatological surgery, aesthetic laser procedures, non-surgical aesthetic procedures and chemical peels. She is currently involved in several clinical research projects to serve these interest areas and has published numerous research papers. With more than 15 years of hands-on clinical expertise, Dr. Kozarev founded the Dermamedica dermocosmetics line; she was the first to incorporate natural dermocosmetics into professional skincare. For Dr. Kozarev skincare is an integral part of healthcare. She is also an active and leading member of several local and international professional organizations. Dr. Kozarev was the first dermatologist in Serbia to perform CO2 laser skin resurfacing, radiowave surgery procedure and non-surgery rejuvenation. To date she has performed over 2.500 skin laser surgeries and approximately 400 ablative CO2 skin resurfacing procedures. Since 1995, Dr. Kozarev has been in private practice in Sremska Mitrovica and is associated with the Dermatology Department of ST Medica General Hospital in Belgrade. Throughout her career Dr. Kozarev has gained tremendous experience using lasers on a daily basis and through her long-standing links with Fotona she has worked with virtually all of Fotona's laser systems in the aesthetic and surgery range and currently owns the DualisSP.

**Andrej Šikovec, M.D., M.Sc.,
Consultant Surgeon**

Dr. Šikovec held the positions of Chief Vascular Surgeon at the Novo Mesto Hospital and Chief Surgeon in Celje Hospital, before starting up his own private practice. Currently the position of Assistant Professor on the Cathedra for Surgery at the Ljubljana University Medical Faculty, and is considered a leading vascular surgeon in Slovenia. Dr. Šikovec performs vascular laser surgery procedures on a daily basis and has experience performing these procedures using various laser sources as well as radio-frequency technology. Having performed over 300 procedures in a two year period, he is one of only a few surgeons worldwide who are able to objectively compare surgical treatment modalities. In June 2006 Dr. Šikovec opened Avelana, his own clinic for vascular surgery. Dr. Šikovec often holds presentations on university lectures, seminars and congresses; both domestic and international, and has had more than 30 scientific articles published in Slovenian and international medical journals. He is a member of various domestic and international professional organizations and has completed additional professional trainings in the UK and the Czech Republic.

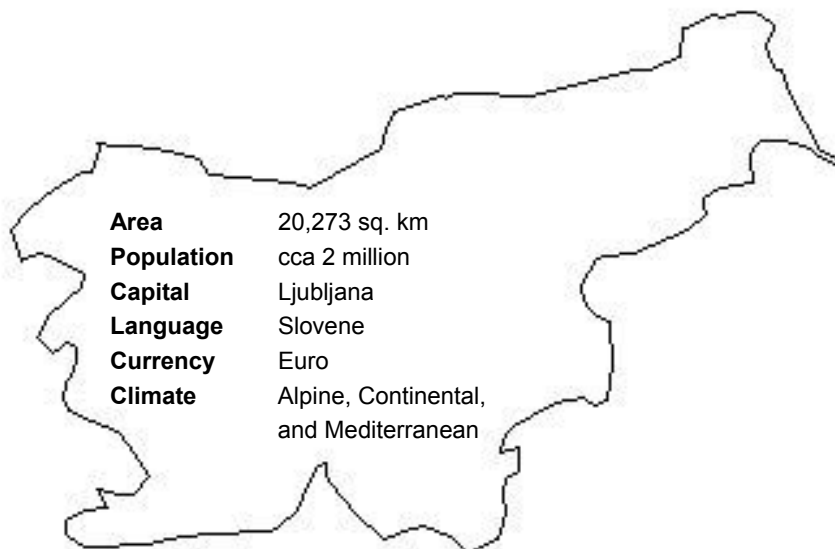

**Dr. Dusko Maletic, MD,
Specialist in Aesthetic
Surgery and Urology**

Dr. Maletic studied medicine at the University of Zagreb, Croatia. He is the owner of Polyclinic Maletic in Croatia where he is also a specialist in surgery, aesthetic surgery and urology. Dr. Maletic has over 30 years of experience in surgery, and has been working exclusively in aesthetic surgery for the past 20 years. An innovator by heart, he has introduced lasers into his practice for, among other things, performing laser-assisted lipolysis and hyperhidrosis laser treatments. Dr. Maletic is continuously improving his professional knowledge covering new technologies related to cosmetic surgery (vibroliposuction, laser-assisted liposuction and laser lipolysis, AZELAIC and COSMO peeling, APTOS lift, non-ablative rejuvenation, photo-rejuvenation, epilation etc.).

Slovenia lies at the heart of Europe, where the Alps and the Mediterranean meet the Pannonian plains and the mysterious Karst.

As a small, beautiful and picturesque country, Slovenia makes a great tourist destination.

Ljubljana is considered a city which suits everyone from its inhabitants to its numerous visitors. It maintains the friendliness of a small town and at the same time possesses all the characteristics of a metropolis.

Due to its geographical position, Ljubljana also represents an ideal starting point to discover the amazingly diverse features and beauty of Slovenia.
